

Permanent Magnetic Yoke

PM-50

PM-50 Permanent Magnetic Yoke set for magnetic particle inspection applications, where AC is not possible or as per spec.

PM-50 contacts are covered with an additional metal surface to reduce damage to the strong surface. **PM-50** allows access even in restrictive applications. **PM-50** Built with super strong rare earth Neodymium Magnets exceeds AS1171 18kg Lift Test lift test rating. **PM-50** is constructed with the separation cable for width compliance whilst also allowing flexibility to perform your test.

Height 48mm, Overall length is 330 mm.

With Certificate to AS 1171
